# Donations, Contributions and Sponsorships Policy

---

In order to contribute to social welfare or for purposes of benefiting the operation and continuity of Canacol, the Company may direct resources to make donations and contributions to third parties or related parties, complying with all of the legal rules and requirements set forth in applicable legislation.

In this sense, all donations, contributions and sponsorships may be directed to collaborate with non-profit entities and/or communities in areas of influence and, likewise, support causes such as human development, sustainable growth, the environment and generating humanitarian response.

In addition, Canacol may make contributions to political movements and parties, such as candidacies and electoral campaigns, while ensuring to comply with the provisions of legislation.

Any donation, contribution, or sponsorship, of whatever nature, in addition to being authorized through the minutes of Canacol's highest body, must be duly recorded in Canacol's accounting books as support and transparency of said operations. Likewise, funds that are intended to be a contribution or donation to a candidate, campaign or political party, must be recorded in the accounting books under the actual denomination of contribution to a candidate, party or electoral campaign.
