The Underwriters, as principals with respect to the sale of the Offered Shares, conditionally offer the Offered Shares, subject to prior sale, if, as and when issued by the Corporation and delivered and accepted by the Underwriters in accordance with the conditions contained in the underwriting agreement referred to under "*Plan of Distribution*" and subject to approval of certain legal matters relating to the Offering on behalf of the Corporation by Davis LLP and on behalf of the Underwriters by Norton Rose Fulbright Canada LLP.

The Underwriters propose to offer the Offered Shares initially at the offering price specified above. After a reasonable effort has been made to sell all of the Offered Shares at the price specified, the Underwriters may subsequently reduce the selling price to investors from time to time in order to sell any of the Offered Shares remaining unsold. Any such reduction would not affect the proceeds received by the Corporation. See "*Plan of Distribution*".

An investment in the securities offered hereunder is speculative and involves a high degree of risk. The risk factors identified under the headings "*Risk Factors*" and "*Special Note Regarding Forward-Looking Statements*" herein and the other documents incorporated by reference in this short form prospectus should be carefully reviewed and evaluated by prospective subscribers before purchasing the securities being offered hereunder.

Subscriptions for Offered Shares and Over-Allotment Shares will be received subject to rejection or allotment in whole or in part and the right is reserved to close the subscription books at any time without notice. It is expected that closing will occur on or about May 27, 2014 or such other date as may be agreed upon by the Corporation and the Underwriters but in any event not later than 42 days following the date of the receipt for the (final) short form prospectus (the "**Closing Date**"). Except in certain limited circumstances: (i) Offered Shares will be represented by a global certificate issued in registered form to the CDS Clearing and Depositary Services Inc. ("**CDS**") in "bookentry only" form; (ii) no certificates evidencing the Offered Shares will be issued to purchasers of Offered Shares; and (iii) purchasers of Offered Shares will only receive a customer confirmation from the Underwriter or other registered dealer who is a CDS participant and from or through whom a beneficial interest in the Offered Shares is purchased. Purchasers who are not issued a certificate evidencing the Offered Shares which are subscribed for by them at closing are entitled under the *Business Corporations Act* (Alberta) ("**ABCA**") to request that a certificate be issued in their name. Such a request will need to be made through the CDS participant through whom the beneficial interest in the securities are held at the time of the request. See "*Plan of Distribution - Book-Entry Only System*".

Subject to applicable laws in connection with the Offering, the Underwriters may effect transactions intended to stabilize or maintain the market price for the Common Shares at a level above that which might otherwise prevail on the open market. Such transactions, if commenced, may be discontinued at any time. A purchaser who acquires Over-Allotment Shares forming part of the Underwriters' over-allocation position acquires those Over-Allotment Shares under this short form prospectus, regardless of whether the over-allocation position is ultimately filled through the exercise of the Over-Allotment Option or secondary market purchases, if applicable. See "*Plan of Distribution*".

RECENT DEVELOPMENTS

On November 1, 2013, the shareholders of the Corporation approved a new shareholder rights plan of the Corporation. The shareholder rights plan was prepared to meet the guidelines of ISS Corporate Services, Inc. and is similar in structure to shareholders rights plans adopted by, and approved by the shareholders of, many Canadian public companies.

On January 24, 2014, the Corporation announced its 2014 capital exploration and development program, which includes a plan to spend net capital expenditures of US\$150,000,000 on drilling, work overs, seismic, production facilities, and pipelines in Colombia and Ecuador.

On January 31, 2014, the Corporation announced that its subsidiary, Canacol Energy Colombia S.A. ("**Canacol Colombia**"), acquired a right to an 80% interest in each of the COR 4 and COR 12 Exploration and Production ("**E&P**") contracts located in the Upper Magdalena Basin of Colombia. Pursuant to the terms of the agreements executed in respect of these transactions, Canacol Colombia acquired a right to an 80% interest in each of the COR 4 and COR 12 E&P contracts in consideration for: (i) a total payment of US\$15,000,000 (US\$7,500,000 for each block) via the issuance of 2,454,590 Common Shares at a deemed price of \$6.79 per Common Share; (ii) agreeing to fund the vendors' remaining 20% share of exploration commitments in the first two phases (unified into a single phase in the case of COR 12) of each of the contracts; (iii) granting a 3% overriding royalty to the applicable vendor for each block; and (iv) agreeing to the payment of a one-time bonus totalling US\$5,000,000 in the event that any one of the two blocks are subsequently successfully farmed out by Canacol Colombia to a third party. USE OF PROCEEDS

The net proceeds to the Corporation from this Offering, prior to the exercise of the Over-Allotment Option, are estimated to be \$119,126,623.50 after deducting the Underwriters' Fee of \$5,625,076.50 and the estimated expenses of this Offering of \$250,000. If the Over-Allotment Option is exercised in full, the net proceeds from this Offering are estimated to be \$137,033,117.02 after deducting the Underwriters' Fee of \$6,468,837.98 and the estimated expenses of this offering of \$250,000. See "*Plan of Distribution*".

The Corporation intends to use the net proceeds from the Offering (including from the exercise of the Over-Allotment Option, if any) to: (i) accelerate the exploration and development drilling program on the LLA 23 E&P contract at Corporation's Labrador oil discovery (one additional exploration well and up to six additional development wells); (ii) accelerate the Corporation's water handling and power generation facilities on the LLA 23 E&P contract to more effectively manage operating costs; (iii) accelerate the exploration and development drilling program on the Santa Isabel E&P contract (two wells); (iv) expand the development drilling program at the VMM 2 E&P contract on its Mono Arana oil discovery (three wells); (v) fund other future capital expenditure activities; and (vi) for general corporate and working capital purposes.

The Corporation's revised 2014 capital exploration and development program includes plans to drill 13 gross exploration wells, 43 gross development wells and work over 13 existing producing wells in its oil fields located in Colombia and Ecuador. The Corporation's oil exploration drilling activities will focus on the LLA 23 E&P contract, the VMM 2 E&P contract, the VMM 3 E&P contract, the Santa Isabel E&P contract and the Ombu block in the Caguan Putumayo Basin. The Corporation's on-going capital expenditures are expected to be incurred in connection with drilling, completion and equipping operations by the Corporation, as well as land, seismic, facilities construction and property purchases, all relating to the Corporation's 2014 capital exploration and development program.

The use of the net proceeds of the Offering by the Corporation is consistent with the Corporation's stated business objectives, including those set forth under the heading "*Description of the Business*" in the AIF. There is no particular significant event or milestone that must occur for Canacol's business objectives to be accomplished. While Canacol believes that it has the skills and resources necessary to accomplish its stated business objectives, participation in the exploitation of, exploration for and development of oil and natural gas has a number of inherent risks. See "*Risk Factors*" in this short form prospectus and in the AIF. While the Corporation intends to use the net proceeds as stated above, there may be circumstances that are not known at this time where a reallocation of the net proceeds may be advisable for business reasons that management believes are in the Corporation's best interests.

PLAN OF DISTRIBUTION

Pursuant to an underwriting agreement (the "**Underwriting Agreement**") dated effective as of May 6, 2014 among the Corporation and the Underwriters, the Corporation has agreed to issue and sell an aggregate of 15,823,000 Offered Shares to the Underwriters at a price of \$7.90 per Offered Share and the Underwriters have severally agreed to purchase (or arrange for the purchase of) such Offered Shares on or about May 27, 2014 or such other dates as may be agreed to by the Corporation and the Underwriters, but in any event not later than 42 days following the date of the receipt for the (final) short form prospectus. Delivery of the Offered Shares is conditional upon payment at closing of \$7.90 per Common Share by the Underwriters to the Corporation. The Underwriting Agreement provides that the Corporation will pay the Underwriters' Fee of \$0.3555 per Common Share for an aggregate fee payable by the Corporation of \$5,625,076.50, in consideration for their services in connection with the Offering. The terms of the Offering were determined by negotiation between the Corporation and the Lead Underwriter on its own behalf and on behalf of the Underwriters.

The Corporation has granted the Underwriters an Over-Allotment Option, exercisable, in whole or in part, from time to time, until 30 days following the closing of the Offering, to purchase (or arrange for the purchase of) up to an additional 2,373,450 Over-Allotment Shares at a price of \$7.90 per Over-Allotment Share for aggregate proceeds of up to \$18,750,255 for the purposes of covering the Underwriters' over-allotments, if any, and for market stabilization purposes. If the Underwriters exercise the Over-Allotment Option in full, the total Offering proceeds, Underwriters' Fee and net proceeds to the Corporation (before deducting expenses of the Offering) will be \$143,751,955, \$6,468,837.98 and \$137,283,117.02, respectively. This short form prospectus also qualifies the distribution of the Over-Allotment Shares.

The obligations of the Underwriters under the Underwriting Agreement are several and not joint and several, and may be terminated at any time in their sole discretion on the basis of their assessment of the state of the financial markets and on the occurrence of certain stated events. Subject to certain exceptions contained in the Underwriting Agreement, if an Underwriter fails to purchase the Offered Shares which it has agreed to purchase, the other Underwriters may, but are not obligated to, purchase such Offered Shares. The Underwriters are, however, obligated to take up and pay for all Offered Shares if any are purchased under the Underwriting Agreement. The Underwriting Agreement also provides that the Corporation will indemnify the Underwriters and their directors, officers, agents, shareholders, partners and employees against certain liabilities and expenses.

The issued and outstanding Common Shares are listed on the TSX under the symbol "CNE", on the BVC, the principal stock exchange of Colombia, under the symbol "CNEC", and on the OTCQX International Premier under the symbol "CNNEF". On May 5, 2014, the last trading day prior to the public announcement of the Offering, the closing price of the Common Shares on the TSX was \$8.15 per Common Share. On May 8, 2014, the last trading day prior to the date hereof, the closing price of the Common Shares on the TSX was \$7.64 per Common Share. The Corporation has applied to list the Offered Shares and the Over-Allotment Shares offered under this short form prospectus on the TSX. Listing will be subject to the Corporation fulfilling all of the listing requirements of the TSX.

Pursuant to the Underwriting Agreement, the Corporation has agreed not to issue, or announce any intention to issue, any shares from treasury or financial instruments convertible or exercisable into shares for a period of 90 days after the Closing Date without the written consent of the Lead Underwriter, such consent not to be unreasonably withheld. These restrictions do not apply to the exercise of stock options or outstanding share purchase warrants or to future grants of stock options during such period, provided that such options do not exceed, in the aggregate, 10% of the issued and outstanding Common Shares at the time of grant or Common Shares issued on redemption or conversion of outstanding convertible debentures.

The Underwriters propose to offer the Offered Shares and the Over-Allotment Shares initially at the offering price specified on the cover page of this short form prospectus. After the Underwriters have made a reasonable effort to sell all of the Offered Shares and the Over-Allotment Shares at the price specified on the cover page, the offering price may be decreased and may be further changed from time to time to an amount not greater than that set out on the cover page, and the compensation realized by the Underwriters will be decreased by the amount that the aggregate price paid by purchasers for the Offered Shares or the Over-Allotment Shares is less than the price paid by the Underwriters to the Corporation. Notwithstanding any reduction by the Underwriters in the offering price specified on the cover page, the proceeds received by the Corporation will not be affected.

Pursuant to policy statements of certain Canadian provincial securities commissions, the Underwriters may not, throughout the period of distribution, bid for or purchase Common Shares for their own account or for accounts over which they exercise control or direction. The foregoing restriction is subject to exceptions, on the condition that the bid or purchase not be engaged in for the purpose of creating actual or apparent active trading in, or raising the price of, the Common Shares. Such exceptions include a bid or purchase permitted under the Universal Market Integrity Rules for Canadian Marketplaces administered by Market Regulation Services Inc. relating to market stabilization and passive market making activities and a bid or purchase made for and on behalf of a customer where the order was not solicited during the period of distribution. Subject to applicable laws, pursuant to the first-mentioned exception, in connection with this Offering, the Underwriters may over-allot or effect transactions which stabilize or maintain the market price of the Common Shares at a level above that which might otherwise prevail on the open market. Such transactions, if commenced, may be discontinued at any time. A purchaser who acquires Over-Allotment Shares acquires those Over-Allotment Shares under this short form prospectus, regardless of whether the over-allocation position is ultimately filled through the exercise of the Over-Allotment Option or secondary market purchases.

The Offered Shares and Over-Allotment Shares have not been and will not be registered under the U.S. Securities Act or the securities laws of any state of the United States. The Offered Shares and Over-Allotment Shares may not be offered, sold or delivered, directly or indirectly, within the United States (as such term is defined in Regulation S under the U.S. Securities Act), except in transactions exempt from the registration requirements of the U.S. Securities Act and applicable state securities laws. The Underwriting Agreement permits the Underwriters through their U.S. registered broker-dealer affiliates to offer and sell Offered Shares in the United States to "qualified institutional buyers" as defined in Rule 144A under the U.S. Securities Act and similar exemptions under applicable state securities laws. This short form prospectus does not constitute an offer to sell or a solicitation of an offer to buy any of the Offered Shares or Over-Allotment Shares in the United States. Moreover, the Underwriting Agreement provides that the Underwriters will offer and sell the Offered Shares and Over-Allotment Shares outside of the United States only in accordance with Rule 903 of Regulation S under the U.S. Securities Act. The Offered Shares that are sold in the United States will be restricted securities within the meaning of Rule 144(a)(3) of the U.S. Securities Act.

In addition, until 40 days after the commencement of the Offering, any offer or sale of Offered Shares within the United States by any dealer, whether or not participating in the Offering, may violate the registration requirement of the U.S. Securities Act if that offer or sale is made otherwise than in accordance with an applicable exemption from registration under the U.S. Securities Act.

Book-Entry Only System

The Offered Shares will be issued in "book-entry only" form, except in certain limited circumstances, and must be purchased or transferred through a participant. On the Closing Date, the Offered Shares will be issued, registered to CDS or its nominee, CDS & Co., and will be deposited with CDS pursuant to the book-entry only system. Unless the book-entry only system is terminated as described below, a purchaser acquiring a beneficial interest in the Offered Shares, will not receive a certificate for Common Shares. Purchasers of Offered Shares will not be shown on the records maintained by CDS, except through a participant.

Beneficial interests in Offered Shares will be represented solely through the book-entry only system and such interests will be evidenced by customer confirmations of purchase from the registered dealer from which the Offered Shares are purchased in accordance with the practices and procedures of that registered dealer. In addition, registration of interests in and transfers of the Common Shares will be made only through the depository service of CDS.

As indirect holders of Common Shares, investors should be aware that they (subject to the situations described below): (a) may not have Common Shares registered in their name; (b) may not have physical certificates representing their interest in the Common Shares; (c) may not be able to sell the Common Shares to institutions required by law to hold physical certificates for securities they own; and (d) may be unable to pledge Common Shares as security. Purchasers who are not issued a certificate evidencing the Offered Shares which are subscribed for by them at closing are entitled under the ABCA to request that a certificate be issued in their name. Such a request will need to be made through the CDS participant through whom the beneficial interest in the securities are held at the time of the request.

The Common Shares will be issued to beneficial owners thereof in fully registered and certificated form only if: (a) required to do so by applicable law; (b) the book-entry only system ceases to exist; (c) CDS advises Canacol that CDS is no longer

willing or able to properly discharge its responsibilities as depository with respect to the Common Shares and Canacol is unable to locate a qualified successor; or (d) Canacol, at its option, decides to terminate the book-entry only system through CDS.

ELIGIBILITY FOR INVESTMENT

In the opinion of Davis LLP, counsel to the Corporation, the Offered Shares, if issued on the date hereof, would be qualified investments under the *Income Tax Act* (Canada) (the "**Tax Act**") as of the date hereof for a trust governed by a registered retirement savings plan ("**RRSP**"), registered retirement income fund ("**RRIF**"), deferred profit sharing plan, registered education savings plan, registered disability savings plan or tax-free savings account ("**TFSA**").

Notwithstanding that the Offered Shares may be qualified investments for a trust governed by a RRSP, RRIF or a TFSA, the annuitant under a RRSP or RRIF or the holder of a TFSA may be subject to a penalty tax if such Offered Shares are a "prohibited investment" for the RRSP, RRIF or TFSA for purposes of the Tax Act. The Offered Shares will generally not, as of the date hereof, be a "prohibited investment" for trusts governed by a TFSA, RRSP, or RRIF unless the holder of the TFSA or the annuitant under the RRSP or RRIF, as applicable, (i) does not deal at arm's length with the Corporation for purposes of the Tax Act, or (ii) has a "significant interest" as defined in the Tax Act in the Corporation.

Prospective holders who intend to hold Offered Shares in their RRSP, RRIF or TFSA should consult their own tax advisers regarding whether the Offered Shares will be a prohibited investment in their particular circumstances.

RISK FACTORS

An investment in the Offered Shares or Over-Allotment Shares offered hereby is highly speculative due to the high risk nature and stage of development of the Corporation's business, including the nature of the Corporation's involvement in the exploration for and the acquisition, development and production of oil and natural gas in foreign countries.

Prospective investors should consider carefully all of the information set out in this short form prospectus and in the documents incorporated by reference and the risks attaching to an investment in the Corporation, including in particular, but not limited to, the factors set out under the heading "*Risk Factors*" in the AIF, before making any investment decision and consult with their own professional advisors where necessary.

All statements regarding the Corporation's business should be viewed in light of these risk factors. Investors should consider carefully whether investment in the Offered Shares and Over-Allotment Shares is suitable for them in light of the information in this short form prospectus and in the documents incorporated by reference and their personal circumstances. Such information does not purport to be an exhaustive list. If any of the identified risks were to materialize, the Corporation's business, financial position, results and/or future operations may be materially affected. Additional risks and uncertainties not presently known to the Corporation, or which the Corporation currently deems not to be material, may also have an adverse effect upon the Corporation, the Offered Shares and the Over-Allotment Shares.

Use of Proceeds of the Offering

As set out under the heading "*Use of Proceeds*" in this short form prospectus, the Corporation intends to use the net proceeds from the Offering to fund future capital expenditure activities and for general corporate and working capital purposes. Although these approximate allocations and the approximate timing of the expenditures are based on the current expectation of management of the Corporation, there may be circumstances that are not known at this time where a reallocation of the net proceeds of the Offering or a change in the timing of the particular expenditure may be advisable for business reasons that management believes are in the Corporation's best interests.

Forward-Looking Statements May Prove to be Inaccurate

Investors are cautioned not to place undue reliance on forward-looking statements. By its nature, forward-looking statements involve numerous assumptions, known and unknown risks and uncertainties, of both a general and specific nature, that could cause actual results to differ materially from those suggested by the forward-looking statements or contribute to the possibility that predictions, forecasts or projections will prove to be materially inaccurate.

Additional information on the risks, assumptions and uncertainties are found in this short form prospectus under the heading "*Special Note Regarding Forward-Looking Statements*".

Significant Fluctuations in Market Price of Common Shares

The trading price of the Common Shares has been and may continue to be subject to significant fluctuations, which may be based on factors unrelated to the Corporation's financial performance or prospects. These factors include macroeconomic developments in North America and globally, and market perceptions of the attractiveness of particular industries. The price of the Common Shares may also be significantly affected by changes in commodity prices, currency exchange fluctuation or in the Corporation's financial condition or results of operations. Other factors unrelated to the performance of the Corporation that may have an effect on the price of the securities of the Corporation include the following: the extent of analytical coverage available to investors concerning the business of the Corporation may be limited if investment banks with research capabilities do not follow the Corporation's securities; lessening in trading volume and general market interest in the Corporation's securities may affect an investor's ability to trade significant numbers of securities of the Corporation; and the size of the Corporation's public float may limit the ability of some institutions to invest in the Corporation's securities. If an active market for the securities of the Corporation does not continue, the liquidity of an investor's investment may be limited and the price of the securities of the Corporation may decline.

Future Sales or Issuances of Securities

The Corporation may sell additional Common Shares or other securities in subsequent offerings. The Corporation may also issue additional securities to finance future activities. The Corporation cannot predict the size of future issuances of securities or the effect, if any, that future issuances and sales of securities will have on the market price of the Common Shares. Sales or issuances of substantial number of Common Shares, or the perception that such sales could occur, may adversely affect the prevailing market price of the Common Shares. With any additional sale or issuance of Common Shares, investors will suffer dilution to their voting power and the Corporation may experience dilution in its earnings per share.

LEGAL PROCEEDINGS

There are no outstanding legal proceedings material to the Corporation to which the Corporation, or any of its respective properties are subject, nor are there any such proceedings known to be contemplated.
